Introduction

The process of Improvement Planning in Kentucky is used as the means of determining how schools and districts will plan to ensure that students reach proficiency and beyond by 2015. The process focuses school and district improvement efforts on student needs by bringing together all stakeholders to plan for improvement, by focusing planning efforts on priority needs and closing achievement gaps between subgroups of students, by building upon school and district capacity for high quality planning, and by making connections between the funds that flow into the district and the priority needs in schools. Your school's plans for improvement must be based on careful and honest analysis of data, address all content areas, and clearly address gaps in student achievement.

Executive Summary

Introduction

Every school has its own story to tell. The context in which teaching and learning takes place influences the processes and procedures by which the school makes decisions around curriculum, instruction, and assessment. The context also impacts the way a school stays faithful to its vision. Many factors contribute to the overall narrative such as an identification of stakeholders, a description of stakeholder engagement, the trends and issues affecting the school, and the kinds of programs and services that a school implements to support student learning.

The purpose of the Executive Summary (ES) is to provide a school with an opportunity to describe in narrative form the strengths and challenges it encounters. By doing so, the public and members of the school community will have a more complete picture of how the school perceives itself and the process of self-reflection for continuous improvement. This summary is structured for the school to reflect on how it provides teaching and learning on a day to day basis.

Description of the School

Describe the school's size, community/communities, location, and changes it has experienced in the last three years. Include demographic information about the students, staff, and community at large. What unique features and challenges are associated with the community/communities the school serves?

School's size-837 students

Location-1637 Perryville Road, Danville KY 40422

Phone: (859) 236-5047

Fax: (236) 236-6826

BCHS has experienced many new staff this year and is undergoing changing with the new teacher evaluation system.

Staff-60 staff members

Our Current School Council Members:

Andrea Mesplay Rachel Settles Amy Farr

Michelle Feistritz Carrie Snow Mark Wade

School's Purpose

Provide the school's purpose statement and ancillary content such as mission, vision, values, and/or beliefs. Describe how the school embodies its purpose through its program offerings and expectations for students.

Boyle County High School strives to inspire and equip all students to be successful citizens through the self-disciplined pursuit of their unique abilities.

This statement is read before every site based meeting so the committee can laser focus the intentions of the meeting on our school's vision.

Notable Achievements and Areas of Improvement

Describe the school's notable achievements and areas of improvement in the last three years. Additionally, describe areas for improvement that the school is striving to achieve in the next three years.

With the new KPREP accountability system, BCHS had the following results:

14 out of 20 Achievement

8 out of 20 GAP

12.1 out of 20 Growth

18.2 out of 20 College & Career Readiness

19.2 out of 20 Graduation Rate

71.5 out of 100 TOTAL=96th Percentile of all KY High Schools, A "School of Distinction" rating classified as "distinguished/progressing".

Areas of improvement-BCHS will focus in on increasing our GAP and Achievement scores

Additional Information

Provide any additional information you would like to share with the public and community that were not prompted in the previous sections.

Boyle County Schools ranks in the 6th out of 173 school districts in Academic Achievement.

KDE Needs Assessment

Introduction

The purpose of the School Needs Assessment is to use data and information to prioritize allocation of resources and activities.

Data Analysis

What question(s) are you trying to answer with the data and information provided to you? What does the data/information tell you?

What does the data/information not tell you?

How do we increase our Achievement and GAP scores?

Areas of Strengths

What were the areas of strength you noted? What actions are you implementing to sustain the areas of strength? What is there cause to celebrate?

Our strength is a culture of high expectations. We also have teachers that strive to build appropriate relationships with students.

Opportunities for Improvement

What were areas in need of improvement? What plans are you making to improve the areas of need?

Areas of improvement are Achievement and GAP scores on the latest KPREP data.

Conclusion

Reflect on your answers provided in the previous sections. What are your next steps in addressing areas of concern?

Consult with teacher leaders in our building and rollout a comprehensive plan to address these areas.

The Missing Piece

Introduction

This Missing Piece diagnostic is a comprehensive performance assessment tool that proposes specific school-level descriptors for the six objectives of the Commissioner's Parent's Advisory Council. They include provisions that every student in Kentucky will have a parent, or another adult, who knows how to support that student's academic achievement. These objectives support Kentucky education laws as it recognizes the importance of parent involvement (KRS 158.645) (KRS.160.345) (KRS 156.497) (KRS 158-031) (KRS 157.3175)

Stakeholders

School staff engaged a variety of stakeholders when completing the Missing Piece Diagnostic

What stakeholders (name and title) did you engage for the purpose of completing the Missing Piece diagnostic?

Spencer Tatum-Building Assessment Coordinator, Assistant Principal

Marjie Rush-Assistant Special Education Director

Amy Reynolds-Guidance Counselor

Relationship Building

School staff builds productive, personal relationships with parents of all their students.

Improvement Planning Process

Describe the process used to engage a variety of stakeholders in the development of the institution's improvement plan. Include information on how stakeholders were selected and informed of their roles, and how meetings were scheduled to accommodate them.

The process of improving our school is an ongoing trend. The administrative team meets regularly to discuss data and reflect on the performance of our school. The principals, superintendent, assistant superintendent, and assistant special education director meet at least monthly to discuss performance and strategies to implement in the improvement plan. Constant feedback is gathered from the stakeholders through their participation in deeper learning projects and through site based council meetings. We have provided multiple opportunities for many stakeholders to share in the development of the improvement plan.

Describe the representations from stakeholder groups that participated in the development of the improvement plan and their responsibilities in this process.

Administration Team-Major representation is from constant observation in the classroom and duties to facilitate improvements.

Teachers-Reflect on data and to implement classroom changes to address the needs of learners. Teachers have a huge amount of ownership in our school's performance, so they are constantly suggesting methods of improvement.

District Team-Assessment of data and feedback on many of the implemented programs. This group is also where a huge amount of intervention ideas are created.

Community and Parents-This group has played a huge role this year in deeper learning. They have been involved in many classes with problem based learning and interdisciplinary problem sets. This allows them to offer feedback and suggestions about the educational process.

Explain how the final improvement plan was communicated to all stakeholders, and the method and frequency in which stakeholders receive information on its progress.

The final improvement plan will be approved by site based council and therefore will be available to all stakeholders. The teachers, administrative team, community, and students will play a role in ensuring that the plan is implemented and measured.

Compliance and Accountability - High Schools

Introduction

The process of Improvement Planning in Kentucky is used as the means of determining how schools and districts will plan to ensure that students reach proficiency and beyond by 2015. The process focuses school and district improvement efforts on student needs by bringing together all stakeholders to plan for improvement, by focusing planning efforts on priority needs and closing achievement gaps between subgroups of students, by building upon school and district capacity for high quality planning, and by making connections between the funds that flow into the district and the priority needs in schools.

Your school's plans for improvement must be based on careful and honest analysis of data, address all content areas, and clearly address gaps in student achievement.

Planning and Accountability Requirements

The school has identified specific strategies to address areas for improvement identified in the TELL KY Survey results.

School Safety Report

Introduction

In response to recent tragic events in our nation's schools, during the 2013 legislative session the Kentucky General Assembly took action, through the passage of Senate Bill 8/House Bill 354, to assure that our schools are safer places for students and staff to work and learn. Among other things, SB8/HB354 required changes to emergency plan requirements, the development of school safety practices, and additional severe weather, lockdown and earthquake drills. The bill also required local school district superintendents to verify to the Kentucky Department of Education that all schools in the district are in compliance with these requirements. This diagnostic is the means by which this reporting is accomplished.
