

Hello!

I hope the 2019-2020 school year is going well. This school year, I have been busy collaborating with my partners in the Top Teacher Test Prep network, and I am excited to continue with my work with schools and other learning communities.

Thank you for choosing me as a partner in education for your school! I truly enjoy my work with you! I am happy to continue to offer workshops and other academic services in the following areas:

- Standardized Test Preparation (ACT & SAT Workshops)
- Post-Secondary Planning services, including College Selection guidance and College Application assistance
- Individualized Academic Tutoring for all content areas (Pre-K thru 12)
- Organization and Learning Strategies

I invite and encourage you to take advantage of workshops. These provide hands-on, minds-on work and are effective for all learners. I have limited availability, so please share your needs with me at your earliest convenience. I will do my best to accommodate and/or to refer you to my qualified partners.

Thank you again! I look forward to serving your learning community.

Sincerely,

Bridget Johnston Mountjoy, B.S., M.A.

ACT Preparatory Courses

ACT Preparatory Courses are open to all learners. Each workshop involves 2 hrs in the workshop setting and includes all course materials. (Students provide their own calculators.)
Workshops are provided at cost below for up to 25 learners.

	Price for Full Series (Best Value)
Complete ACT Workshop Series (5 Workshops and Materials)	\$3000 (includes materials fees)
	Price per Workshop
*How to Take the ACT Students receive materials and participate in activities as general overview of the ACT. Students reflect on individual approaches to ACT and discuss adjustments to current strategies. Students practice - on "Real" ACT exams - strategies for general test-taking and specific content areas. Students receive materials to complete independently.	\$850 (includes materials fee)
ACT Workshop 1: Math Students receive materials and participate in activities for specific review of math concepts for the ACT. Students practice - on "Real" ACT exams - strategies for higher scoring on the math section of the ACT. Students receive materials to complete independently.	\$650
ACT Workshop 2: English Students receive materials and participate in activities for specific review of English concepts for the ACT. Students practice - on "Real" ACT exams - strategies for higher scoring on the English section of the ACT. Students receive materials to complete independently.	\$650
ACT Workshop 3: Reading/Science Students receive materials and participate in activities for specific review of reading and science skills for the ACT. Students practice - on "Real" ACT exams - strategies for higher scoring on the reading and science sections of the ACT. Students receive materials to complete independently.	\$650
ACT Workshop 4: All Review Students receive materials and participate in activities for specific review of all content and skills areas for the ACT, including their choice of content and skills on the ACT. Students receive materials to complete independently.	\$650

**Required as an introductory course for subsequent workshops.*

Courses are designed for up to 25 learners. Add \$50 for each student in addition to 25 students included in workshop costs in order to cover extra materials fees per student.
